Smart IPTV Activation

Smart TVs and **supported devices** can be activated after a **one-time** activation fee of **5.49 Euros** for each TV/device.

To avoid activation delays, there is no need to wait until the trial version expires if everything is working fine for you. Use the credit card panel below to activate your TV/device instantly, in **automatic** mode. After trial expiration, your playlist is **removed** from TV as well as from the server.

Very important! Please **DO NOT** pay if you don't have any channels to use with the application (no channels are provided with activation payment) or if something is not working for you, because the payment won't solve any of these problems. And you **will not be refunded** if you do.

NO CHANNELS are provided with activation, you have to add your own. No information will be provided, where you can get a working playlist for your needs. And please don't ask about channels.
